

HOW “FAN INTO FLAME” WILL BENEFIT YOUR CONGREGATION

In 2004 the Lutheran Church-Missouri Synod, meeting in convention, adopted a \$100 million Ablaze! fund-raising effort. The purpose of the funds raised is to address the opportunities God has placed before us to expand mission outreach at the synodical, district and congregational levels. This effort is known as “**FAN INTO FLAME.**”

The greatest benefit of participating in **Fan into Flame** for a congregation is being able to contribute toward ministries that will bring Christ into the lives of people on a scale that the individual congregation is unable to do on its own. By participating, a congregation has the opportunity to make a significant difference in the mission of our synod for future as well as immediate needs. However, there are also other benefits.

Fan Into Flame offers every participating congregation a unique opportunity. 15% of the net funds raised in a local congregation for **Fan into Flame** will return to the congregation for outreach ministry in that congregation’s local community.

The greatest benefit of participating in **Fan into Flame** for a congregation is being able to contribute toward ministries that will bring Christ into the lives of people on a scale that the individual congregation is unable to do on its own. By participating, a congregation has the opportunity to make a significant difference in the mission of our synod for future as well as immediate needs. However, there are also other benefits.

Fan Into Flame offers every participating congregation a unique opportunity. 15% of the net funds raised in a local congregation for **Fan into Flame** will return to the congregation for outreach ministry in that congregation’s local community.

(over)

The return of net 15% of dollars raised by the congregation to that congregation brings the added benefit of mission education. This happens as members are informed about district and synodical missions during the **Fan into Flame** event.

Another benefit of participating and receiving net 15% back will mean congregational members talking together and making decisions about specific expenditures of funds for outreach ministry in their local area. What a wonderful discussion to have. To talk about missions without discussing whether it can be afforded or not. It can be!

The amount being returned will be known. The discussion must take place on how to disburse these monies most

effectively for the good of the Kingdom. That conversation alone will be a unique experience for many.

Learning about local, district and synodical missions, discussing local opportunities for mission, spending time, effort and money on a local mission and seeing the results will “lift high the cross” and might even “fan into flame” the desire to do more.

In joyful service,

Rev. Ron Pfluger
Fan into Flame Steering Committee Chairman
Mid-South District LCMS
